A HOBBY, TURN TO PAGE 3**

VULCANITE IS MADE—Since 1860, with the exception of two years during the last war, Vulcanite has been made continuously in this building. In these days it was owned by the Scottish Vulcanite Company and absorbed by the North British Rubber in 1910. Our Vulcanite S.P.C. chief, Henry Clay, is now the only employee who was with the old Scottish Vulcanite Company.
