## **FACT-FINDING VISIT BY LORD STRATHCLYDE**

D. F. VALLIS, Mechanicals Factory Manager, discussing with the Minister of State for Scotland the construction of giant suction and discharge hose. In the background is Superintendent C. Rutherford.

Following his visit, Lord Strathclyde commented—"I think it is perhaps too often assumed that new ideas in industry are the prerogative of new firms. It is true, of course, that many new firms have brought new ideas to Scotland, and we are grateful to them, but I do not think it should be forgotten that the older firms are constantly seeking, and finding, new ideas that mean a great deal to our national prosperity."
